### **To whom it may concern**

Ian Clare has had design responsibility for the landscape across our award winning campus for approaching 20 years.

From a 25 acre sports development in the early 1990's we saw the benefit in using Ian's expertise and have continued to appoint him to design our western campus and numerous individual schemes around construction projects.

Most recently Ian has designed our replacement sports development over 90 acres.

We consistently aim for the highest quality and this is reflected in the campus today.

You would be welcome to visit our campus to see the quality first hand.

It is rewarding to have the opportunity to recommend a trusted colleague.

Regards

**David Oldham**  
**Director of Capital Developments**
