Dear Sirs

I would like to take this opportunity to record my appreciation of the dedicated and professional support from your company.

Wirral's Children and Young People's Department has been fortunate to have had a number of playing field improvement schemes over the last few years. These have ranged from extensive drainage programmes, re-establishing sports pitches and developing external play areas in Secondary, Primary and Special schools. In addition to these, your Director Ian Clare has been extensively involved in a long standing development of a third generation football pitch and associated bid documents for Woodchurch High School, which we are anticipating being on site very soon.

The level of support myself and colleagues have had in all of these schemes has been exceptional and we have welcomed the teams very tolerant dealing of our queries and demands. Schools have also expressed their thanks to the teams' management of contractors on site and the attention to health and safety requirements in schools.

I look forward to a continued relationship with Milieu Landscape Design and would recommend the company to others without hesitation, thank you once again for your continued support.

Yours faithfully

David Armstrong
Interim Director of Children's Services
