please ask for **Andrew Cowing**

Dear Sir or Madam,

Since 2007, Wirral Council Sport & Recreation Division have worked extremely successfully with Milieu Design Consultancy on three major projects with a total capital build cost in excess of £900k.

Their approach from initial introductory meeting through to contract completion has always been highly professional and their dedication has resulted in three excellent projects being delivered, these have included two outdoor short sided soccer facilities and a full sized hockey pitch. Their attention to detail, not only on the sporting design, but also with regards to the importance of landscape design to complement the existing surroundings, has always been of the highest standard.

On the above schemes, we required the externally appointed consultant to take the projects from the vision of an initial outline proposal right through to completion. Full project management covered site investigations, topographic surveys, landscape design, quantity surveying, planning supervision for CDM regs, engineering services, clerk of works services, planning applications, tender preparation / action and liaison with Council building control officers.

Their experience of dealing with, and controlling contractors, in order to deliver exactly what the client wants is extremely impressive and my personal experience of working with Milieu Landscape Design has always been pleasurable.

I would confidently recommend their services to other organisations.

If you require any further information, please do not hesitate to contact me on any of the numbers above or by e mail.

Yours faithfully,

Andrew Cowing
